

UNIVERSAL GOLF CAR MOUNTS

User Guide | Model: ACC-SEGCTV4

These Universal Golf Car Mounts allow for a secondary mounting position for all SoundExtreme Powersports Amplified Soundbars.

Mounting Instructions

1. Locate the nuts and bolts that are used to attach the roof support or struts to the rooftop on your golf car.
2. Remove the nut and washer.
3. Leave the bolts in place and hold the Universal Golf Car Mount up to the bolts. The bolts will fit into the two slotted holes.
4. When positioning the Universal Golf Car Mount, confirm that there is enough available clearance above the Mount to insert hardware to attach the soundbar to the Mount. If more clearance is needed, the Mount should have the “step” or “bend” on the bottom.

TOP VIEW

5. Put the washer back on the bolt first, followed by the nut.
6. Tighten the nut, be careful not to over tighten. Please refer to your owners service manual for proper torque specifications. Typical specifications will be approximately 5-8 Nm or 45-70 IN LB.

7. Repeat this process on the other side of the golf car, so you have one bracket on the driver's side of the golf car and one bracket on the passenger side of the golf car.
8. Once the Universal Golf Car Mounts are properly secured, it is time to install the soundbar.

9. Locate the 1/4-20 integrated threaded holes on the top of the soundbar.

FRONT VIEW

10. Line up the integrated threaded holes on the soundbar with the long slots on the Universal Golf Car Mounts and insert as many of the provided $\frac{1}{4}$ -20 x $\frac{3}{4}$ " bolts and washers as you can. Tighten securely.
11. Double-check to make sure the Universal Golf Car Mounts have been securely attached to the golf car, and that the soundbar has been securely attached to the Universal Golf Car Mounts.
